Meet the professional

After a successful Amateur & College career playing for Devon County & Webber International University, Florida, USA. Dan turned Professional in 2006 where he has competed in many PGA events. However, Dan's true passion is helping others to improve and enjoy the game. Even though Dan has only been a professional for the past 4 years he has worked in and around the game for over 15 years. Dan's students range from novice golfers to top amateurs to professionals.

Dan Hendriksen is a committed PGA Golf Professional who looks to provide the finest golf instruction, club fitting, club repair and service possible. From beginners to low handicappers, he will help golfers of all ages take their game to the next level. As a student of Dan's, you don't just get a golf lesson, you receive a customized instruction plan that takes into consideration a wide range of factors, including fitness, level of play, your learning style, the amount of time you have to practice, goals and specific areas that will have the greatest impact on your game.

Teaching Ideas

Dan likes to work with what each student brings to the table. He believes that we are not all built like Tiger Woods, so why make the student swing like him. Keep the swing as simple as possible and always work with the ball flight laws.

As an accredited 'INTO THE ZONE' golf psychology trainer for 'Mastering The Inner Game of Golf' Dan also offers the student the additional opportunity of how to master the mental game of golf. Ask Dan about learning the mental game of golf through attending the introductory 'Into The Zone' workshop that he now holds.
